Package Options and Features

Options
There are 4 packages to choose from when posting a job: standard, balanced, distributed, and diversified. Each contains different features for advertising your job post.

Features
1. **Online listing with your logo**: company logo will be displayed in job posting.
2. **Ad highlighted in search results**: places job posting at the top of search results when job matches a job seeker’s search parameters.

3. **Access to candidates via email**: ability to create email alerts that show candidates who meet alert criteria you define. Please see the [Create Saved Searches](#) section of this manual for more information on using this feature.

4. **Access to resume database**: grants access to resume database. Please see the [Search for Resumes](#) section of this manual for more information on using this feature.

5. **Ad featured on homepage**: promotes job posting on the Career Center Home page.
6. **Ad displayed prominently at the top of your selected Job Function**: places job posting at the top of search results when a job seeker browses by the same job function of the job posting.
Post a Job
1. From the Career Center Home page, select the region where the position is located. *(Note: You will need to be logged into your company account to post a job.)*

2. **Select** a package that best meets your needs from the options provided.
3. Enter details for the position. *(Note: The red dot indicates required fields. Job Function, Industry Sector, Certifications, and Employment Type fields allow multiple selections. Salary Description is mandatory, but it is also a free text field. For example, you can type in “negotiable”, “market”, etc.)*
